NUTRITIONAL SCIENCES PROGRAM SCHOOL OF PUBLIC HEALTH

2022-23 ANNUAL REPORT

The University of Washington Nutritional Sciences Program prepares students to improve individual and population health through the study of foods, nutrients, dietary behaviors, food and policy environments, food systems, and health outcomes.

UNDERGRADUATE

- Food Systems, Nutrition, and Health Major (BA)
- Nutrition Minor
- Courses in the Nutritional Sciences Option (BS) within the Public Health-Global Health Major
- Courses to support undergraduate learning in biology, education, public health, and nursing

GRADUATE

- Master of Public Health, Public Health Nutrition
- Master of Science, Nutritional Sciences
- Doctor of Philosophy, Nutritional Sciences
- Graduate Coordinated Program in Dietetics (GCPD), graduate-level training leading to the Registered Dietitian Nutritionist professional credential

PROGRAM HIGHLIGHTS

Dietetic interns explore sustainable diets

Dietetic interns in UW GCPD take a deep dive with Food Systems educator Marie Spiker on sustainable dietary patterns that serve human and planetary health.
